

Autumn Program

This year Highlands El Encinar, Chaminade Preparatory School and its sister school Saint Joseph' Academy in Saint Louis Missouri, <https://www.chaminade-stl.org/> have just started

crafting together a student exchange program. Chaminade is a catholic school in the Marianist tradition. We will look for **about 12 boys and 6 girls from 1stESO (next school year)** to enjoy this experience, with the participants chosen by writing to **an email to agreciano@highlandselencinar.es** asking to participate in the exchange. We need a **short text in English** that explains the reasons why the student is interested in this exchange program, his/her academic background, main interests and any detail that would help both schools to make successful matches.

Chaminade Preparatory School and Saint Joseph's Academy offer a **3-week exchange program**, which would involve our students going there on the 20th of September and their coming to us for two weeks in Spring. A teachers will fly with the group. Over the course of the three weeks, Highlands' students will take lessons, the perks of day trips and full accommodation.

Families' availability to host an American student is essential to participate in the exchange. The US students participating in the exchange may be older than our students, but, due to our former experience, students' different age has also proven a successful experience. The matches are like big-young brothers or sisters.

The most interesting part of this program is **how affordable it has become** as families will only have to pay for the flights and a little budget for the US students' day trips when they come here. We estimate that the cost of the trip is around 1,600 euros.

Deadline to register; Before Easter holiday.

Confirmation of registration: After Easter Holiday

We are looking forward to succeeding in our common effort to unite the world through schooling.
