

# SUMMER PROGRAMS

## NEW ZEALAND STUDENT EXCHANGE

Three years ago, Highlands El Encinar and John McGlashan College crafted a student exchange program. (<https://www.mcglashan.school.nz>)

This exchange lasts six-eight weeks, from the end of May, just after the 3rd term exams, until mid/end of July 2020. Our students will be able to finish their school year there and get academic credits for this exchange experience.

Highlands students will be accommodated in John McGlashan College and hosted by a school family. They will enjoy day outings and excursions as well as a whole week in a sports camp, accompanied by my colleague teachers. I have been anticipated that most of the activities organized for our students involve winter sports and hiking in New Zealand's breathtaking landscape.

They asked us to host them from the first week in December 2020 until the last week of January (2021). Our school will also organize for them day outings and a whole week in Andalucía, accompanied by their schoolteachers.

The next step to consolidate this appealing student exchange would be to see how many of our students are interested in participating in it so we can start matching them.

**Age:** 14-18 years old. Also, Primary students can host a NZ "big brother or sister".

Usually we have 2-3 students going there.

As the group is small, in order to reduce costs, the group may require an unaccompanied minor service to be hired when buying the flights.

**Deadline to register:** 13<sup>th</sup> of March 2020
