

Autumn Program

HIGHLANDS EL ENCINAR GOES TO TEXAS! SEPTEMBER 21

Years ago, Highlands El Encinar and Saint Michael's Catholic Academy in Austin, Texas, (<https://www.smca.com/page>) crafted together a student exchange program to offer our students a prestigious cultural and language experience. We will look for **about 12-13 students from 2nd ESO-1st Bachillerato (next school year)** to enjoy this experience, with the participants chosen by writing to an email to agreciano@highlandselencinar.es asking to participate in the exchange.

ST. MICHAELS

Saint Michael offers a **3-week exchange program**, which would involve our students going there on the third week of September 2021 and their coming to us for two weeks during their 2020 winter break. Miss Jo will fly with the group and will stay there during the whole exchange. Over the course of the three weeks, Highlands' students will take the classes Saint Michael offers, the perks of day trips and full accommodation.

On our students' return, there will be a **two-week program with workshops**, organized by the different schoolteachers, to help the students catch up with the class level.

Families' availability to host an American student after next Christmas is essential to participate in the exchange. The US students participating in the exchange are older than our students, but, due to our former experience, students' different age has also proven a successful experience.

The most interesting part of this program is **how affordable it has become** as families will only have to pay for the flights and a little budget for the US students' day trips when they come here. We estimate that the cost of the trip is around 1,600 euros.

Deadline to register; End of June 2021

We are looking forward to succeeding in our common effort to unite the world through schooling.

Miss Jo Triviño

Languages Coordinator
